WASHINGTON. September 15,-The Cabinet met in special session at 3 o'clock this afternoon, and adjourned at 4. All of the members were present, except Secretary Alger, who is not in the city. All united in the statement, made after the meeting, that they had agreed to say nothing more of the result of the deliberations than that the peace commissioners and been fully instructed.

Of the nature of these instructions they conveyed no intimation. Each one pointed out that to do so would be extremely impolitic, and would amount to arming the Spanish commissioners in advance. The peace commissioners who were approached on the subject made a similar response, thus closing all official avenues of information.

It is not to be understood that the commissioners go under ironclad and unchangeable instruction at all points, for there is a certain amount of flexibility in the instructions, else, as one of the Cabinet members put 't, the President might just as well have reduced his wishes to paper, in the form of an ultimatum, and have sent that to Paris by a messenger The peace commissioners are in no sense mouthpieces, but having with the greatest care and consideration five men, in whom he puts the most im plicit confidence, the President feels tha they are to be trusted with the interests

Most of the party will leave sociation: Richard W. Venable, of Baltiits staff. Most of the party will leave Washington at 4 o'clock to-morrow af-ternoon for New York, but circumstances detain some of the commissioners

until the midnight train. PATRIOTIC BAGGAGE PASTERS. The Campania sails at 2 P. M. Saturday, and explicit instructions have been given all the members of the party as to being on hand at that time. Special baggage tags have been printed for the belongings of the members, and a small paper paster, showing red and blue bars crossed on a white background, gives a handy way of making a "red, white, and blue" identifi-cation of the personal and general luggage

of the party.

A number of stout cedar chests have been made to carry the books, pamphlets, typewritten papers, etc., forming a part of the American case. The chests are like a shallow steamer trunk, so that they may be shoved under the berths, and thus be available on the passage over, instead of going with the baggage in the hold of the steamer. This will permit considerable work on the trip, and it is expected that the commissioners will hold meetings ing, unanimously resolved that a permaon ship-board.
